## Swalwell

A recital by Mrs. D'Orsey, elocutionist, was given in the Tricker hall on the evening of May 23, in aid of the Union Church building fund debt. There was a good attendance who had the privilege and pleasure of listening to a very excellent program. Interspersed with numbers from Mrs. D'Orsey were vocal and instrumental solos and duets by local artists.

At a Church Board meeting on Saturday night last it was decided to take a congregational vote as to the hour of service. This will be taken at the morning service on June 5. All who can should make a point of attending so that the vote will be a representative one.

Week-enders motoring to Calgary were held up by the rain and some had to return by train.

Father Beaton was a visitor to his old field of labours after an absence of three years, and he is looking much better than when he left.

Our village council is making great strides with their tree planting scheme and what has already been done certainly adds to the beautifying of the streets.

Congratulations to Mr. and Mrs. Otto Kruger on the birth of a daughter.

We understand that G. Wacker has purchased the Bank house now occupied by W. Weicker.

The land belonging to the school on the east side of the track is now fenced giving a barb wire entrance to the town from all sides.

Messrs. W. E. Mann and A. Orr made a business trip to the city this week.

Mr. and Mrs. Bert Tricker motored to Condor on a visit to Mr. and Mrs. Okel Meyers on Saturday and had not returned at the time of writing and it is presumed they are also storm bound.

Mrs. W. R. Gore was also a visitor to Calgary this week to see her daughter who is still very ill.

It is with regret we report the departure of Mrs. Tilley to a hospital in Calgary for an immediate operation. We trust same will be successful and that Mrs. Tilley will soon be feeling better than ever.

## SCHOOL REPORT FOR MAY

### GRADE I, Sr.

W. Dixon, G. Jealous, S. Malton, A. Skerry, L. McEntire, B. McQuade.

### GRADE II

W. Fox, M. Birch, L. McEntire, J. Hunt, F. Greenan, C. Jewel, R. Wise.

### GRADE III

D. Hay, L. Gervais, T. Purdy, C. Pimm, E. Wiertz, F. MacDonald, S. Dodyk, C. Code, D. Wagner, C. Moore.

The Fordson Tractor demonstration, which was held by McCulloch's Ltd. at the farm of Gordon Cademan last Thursday, was a success in every way. The Fordson pulled an Oliver 3-gang plow at a speed of 2½ miles per hour and cut to an average depth of 9 inches. Out of the twenty-nine persons present, not one seemed to be of the opinion that the Fordson tractor lacked power for any farm purpose.

## CHESS CLUB TOURNAMENT

The Carbon Chess Club sealed handicap was brought to a close on May 31st, and was won by Roy English with W. A. Braisher and T. Laing tying for second place. The following are the final scores:

	Won	Drawn	Lost	Handicap	Total
R. English	13	0	7	12	38
W. A. Braisher	18	0	2	scratch	36
T. Laing	12	0	8	12	36
W. Dixon	11	2	7	10	34
R. Heath	2	0	16	28	32
W. Poxon Jr.	2	0	16	28	32
H. A. English	15	0	5	scratch	30
R. H. Purdy	4	1	15	18	27
H. Birch	10	1	9	6	27
C. McPherson	7	0	9	8	22
D. Code	9	2	9	scratch	20

The Junior Tournament was won by W. Poxon Jr. with R. Heath second and Allan Birch third.

## CHAUTAUQUA

Thursday evening.

Mr. Julian B. Arnold, son of Sir Edwin Arnold, the well known poet and statesman, presents England magnificently illustrated with colored slides, as well as other illustrated lectures.

Friday afternoon.

After hearing him you will be in doubt whether it is as a juggler, comedian or as a magician that Herbert Taylor, the clown, excels. This is a special children's program.

Friday evening.

A play of unprecedented popularity, 'Smilin' Thru' has that indefinable quality which makes the difference between an attraction which is merely pleasing and one which is an event of the Chautauqua season.

Saturday afternoon.

The Potter-Craftsman, J. Smith Damron, gives an interesting demonstration of pottery making—a unique entertainment and lecture combined.

Saturday evening.

The Plantation Quartette come north singing the old negro Jubilee songs and are an inspiration and a delight. The voices of the Plantation Quartette are strongly sympathetic and harmonious.

Heirs to the thrones of Great Britain and Spain will vie with each other at the World's Poultry Congress to be held at Ottawa July 27 to August 4. H.R.H. the Prince of Wales will exhibit some live birds from his farm in Cornwall, England. Now word is received that H.R.H. the Prince of Asturias, heir to the Spanish throne, will exhibit some fowl from his own poultry farm.

## The New Dresses

# RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

## Western Canada Points the Way

One of the most notable gatherings of the year, and one in which all the people of Western Canada were particularly and directly interested was the international cooperative wheat pool conference held at Kansas City, Mo., at which representatives were present from the United States, Australia, Germany, Russia, as well as from the three great wheat producing provinces of Canada.

Western Canada was easily the outstanding and dominant factor at the conference. And rightly so because in three short years the farmers of the Prairie Provinces have organized and developed the greatest grain handling corporation in the known world. Their success has been phenomenal eclipsing anything of a like character ever attempted in connection with any commodity. They can speak from actual experience in definite achievement.

It is not surprising, therefore, that at the Kansas City conference the reports presented on behalf of the Alberta, Saskatchewan and Manitoba Pools, and their common central selling agency, were received with great enthusiasm, and that the views expressed and suggestions advanced by the Canadians commanded respect and gave strength to the deliberations of the conference.

Many of our own people have not yet grasped the full magnitude of the operations of the wheat pool, nor realize just how much has been accomplished in the brief period of approximately 1,000 days. Three years ago there was no Canadian Pool. Today, to quote A. J. McPhail, president of the Saskatchewan pool and of the Central Selling pool, there is a membership of 138,000 in the three provinces. In 1921-22 the Canadian pool handled 187,000,000 bushels of wheat belonging to its farmer members and 27,000,000 bushels of coarse grains. The pool has representatives in all wheat importing countries and ships direct to sixty European ports. It owns and controls approximately 650 country elevators in the three provinces, with a combined storage capacity of approximately 22,000,000 bushels. At the head of the lakes the pool has six regional elevators with a storage capacity around 18,000,000 bushels and also a 2,000,000 transfer house at Buffalo. The pool is also operating terminal elevators at Prince Rupert and Vancouver, while plans are under way for large extensions to the country elevator systems in all the provinces. Since the pool began to operate it has paid its farmer members around half a billion dollars.

These are truly remarkable achievements, but they do not tell the whole story. The pool has practically revolutionized the financing methods of our Western farmers. Instead of the farmer getting all his money in one bulk sum every Fall, at which time every creditor made immediate demand upon him, with the result that he was practically forced to sell his wheat at the then prevailing price, and by all following the same course glutting the market, he now receives a first payment and several successive payments spread over the year. The result is not only orderly marketing of the wheat but orderly financing on the part of the farmer. He is to an ever increasing extent conducting his business on cash rather than a credit basis. The system has been of wonderful assistance to the weaker, less business like farmers.

Equally important has been the effect the pool has had in restoring confidence to the farmer and to business interests generally throughout the west. It has given the farmers a feeling of independence and security hitherto lacking. It has emphasized the value of co-operation, and the strength that is to be found in organized cooperative effort as contrasted with each man striving to work out his own problems and his own economic salvation.

The farmers of Western Canada have demonstrated the wisdom of having one great selling agency instead of one or two hundred thousand farmers each selling individually and in competition with each other. The object of the Kansas City conference was to try and devise ways and means whereby the great wheat producing countries of the world could cooperate instead of competing against each other. The most cordial reception was accorded the idea, and efforts will be made to devise a workable plan.

### New Depot for Edmonton

The Canadian National Railway now belongs to the city of Union, Alberta, this year. The estimated cost, having been bought for delivery cost is \$1,000,000. Tenders for the new taxes at a sheriff's sale. The erection of the building have been fine is ten miles long and the rolling received and the contract will be stock includes one locomotive, one awarded as soon as they have been passenger and three freight cars. It considered sold for \$1,100.

### World's Shortest Railroad

The shortest railroad in the world will build a new depot at Edmonton now belongs to the city of Union, Alberta, this year. The estimated cost, having been bought for delivery cost is \$1,000,000. Tenders for the new taxes at a sheriff's sale. The erection of the building have been fine is ten miles long and the rolling received and the contract will be stock includes one locomotive, one awarded as soon as they have been passenger and three freight cars. It considered sold for \$1,100.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher* Absolutely Harmless. No Opium. Physicians everywhere recommend it.

### Huge Dairy Farm

Largest Herd of Dairy Cattle in North America to be Established Near Winnipeg

There is now a herd of one thousand head of Holstein dairy cattle on the Manitoba dairy farms at Marchand, on the Canadian National Railways southeast of Winnipeg. It is the intention of the company, which is colonizing a 90,000-acre tract of land with dairy farmers to increase this herd to 5,000 head, which will make it the largest herd of dairy animals under one ownership in North America.

### Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

## NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia, and colds. 25 cents at all dealers.

### Whale Destroys Cable

A whale which interrupted traffic on the Alaska cable early in April chewed up so much of the cable that an 80-foot replacement was necessary to restore communication.

### THIS GREAT TONIC RENEWS STRENGTH

Simply Because it Enriches and Builds Up the Blood

In no trouble is delay or neglect more dangerous than in anaemia, which means poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized. But taken in time there is a tonic that so enriches and purifies the blood that good health and strength soon comes to the former weak, anaemic sufferer. This tonic is Dr. Williams' Pink Pills, which for years have been the most successful blood builder known, and have credit for restoring to good health thousands and thousands of people who have suffered from some of the many ailments that come through weak, watery blood.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. As proof of this, Miss Margaret A. Smith, Burgoyne, Ont., says: "After having a severe attack of joint disease I was left in a very weak and run-down condition. I was pale and my nerves on edge. I could not sleep at night and would toss and turn for hours at a time. I finally decided to try Dr. Williams' Pink Pills, and soon began to feel better, and after taking a few more boxes of the pills I felt as strong as ever, and could thoroughly enjoy my rest at night. Now, I always recommend these pills to any friends who may be ailing."

Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers, or by mail post paid at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Australia's New Fruit

Australia is producing a new fruit called the cucumber apple for use in salads. Although it has the appearance of an apple, the flavor is said to be distinctly that of a cucumber.

For all pain—Minard's Liniment.

It was believed during the Middle Ages that a child brought up with out being taught any language would speak Hebrew spontaneously.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

If you have an aim in life you can't afford to waste any time in hating people.

Minard's Liniment for dandruff.

W. S. C. 1931

### Why Bald So Young?

## Cuticura will help You

To prevent loss of hair. Dandruff, usually the cause of premature baldness, may be easily removed by regular shampoos with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.

Sample Each Free by Mail. Address: Canadian Dept., "Stonhouse, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c, Talcum 25c.

Cuticura Shaving Stick 25c.

### Clever Blind Student

Completes Four Years Arts Course in Three Years

Gregory Sullivan, blind since birth, has become such a good listener that he soon will have completed a four-year course at the University of Georgia in three years.

His election to Phi Beta Kappa national honorary fraternity, is the latest honor that he has attained. He also won the French medal offered the student making the highest average in that language.

Sullivan, who is 22 years old, has a general average above 90 and will be graduated in June with a bachelor of arts degree.

Throughout his college career, he has relied mainly on friends to read his text books to him.

### Mennonites Purchase Land

Mennonites have bought 2,500 acres of land in the Vulcan district, paying \$125,000 to the vendors. Messrs M & R. Lyman. The Mennonites have acquired 12 sections this spring in Southern Alberta.

**Asthma Doesn't Wear Off Alone.** Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent indolent condition from becoming chronic and saves hours of awful suffering.

An Indiana town has abandoned its fire department composed entirely of women. They insist on silk hose.

## Use DUCO for hundreds of home uses

PAINTING in the home used to be considered a man's job but DUCO has changed that old idea.

Brush DUCO has a particular appeal to women. It is so easy to apply and it dries in less than an hour. Thousands of women are using DUCO who never did any painting before.

When you go to buy DUCO, people may tell you that other products are just as good. Don't be misled. Insist on getting genuine DUCO.

DUCO Clear and four DUCO Stains are now added to the wide range of colors.

\$2.00 a year

### THE DIAMOND JUBILEE

The Diamond Jubilee, the sixtieth anniversary of Confederation, will be celebrated this year all over the Dominion of Canada on July 1. Pamphlets have been distributed all over the Dominion, outlining different programs for celebrations. The program is to be stretched over a period of three days, July 1-2-3, and is generally composed of festivities and sports of all descriptions, all of which tend towards the thought of the Dominion and its progress in the last sixty years. The Dominion Government has set aside a sum of \$250,000 for the cost of fittingly celebrating this Diamond Jubilee of Confederation, but each locality is to finance its own celebration, either by municipal grants, sale of souvenir programs or admission fee for certain sports.

The National Committee has but one object in view, namely, to have a Dominion-wide celebration in order that our people, young and old, may be impressed with the accomplishments of our fathers and mothers in the past, and be imbued with a patriotic optimism for the future.

Completing a journey of over 80,000 miles during which the entire globe was circled, the Canadian Pacific flagship "Empress of Scotland" docked at New York recently. Over 400 passengers disembarked laden with every imaginable kind of souvenir from every country. The ship carried back the first refugees to America from the war zones of China in the persons of Mrs. Melvin Southwick and her young baby, who were forced, through Chinese difficulties, to board a tramp steamer for Kobe, where they were picked up by the "Empress of Scotland." Mrs. Southwick's husband is an official of the Standard Oil Company at Hankow. During the great cruise of the "Empress of Scotland" she visited about 20 countries and anchored in over 25 world ports.

### APPLE SAUCE

Small Brother: Ha, ha! I saw you kiss sis.  
Jack: Er-ah-here's a quarter.  
S. B.: And here's 10 cents change. One price to all. That's the way I do business.

Dear Girl: Is it true that linemen have a girl in every town?  
Smithy: Naw. We don't stop in every town.

Carbon Lady: And what brought you to town, John?  
John: Oh, well, I jus' come to see the sights and I thought I'd

Madame Jane Ston, champion of European women swimmers, arrived in Canada about the middle of May on the Canadian Pacific steamer "Montclair" from Antwerp. She will take part in various swimming marathons in Montreal and other centres in both Canada and the United States, including events at the Toronto Exhibition.

The total catch of seafish on both the Atlantic and Pacific coasts during the month of March showed an increase of nearly 3,000,000 pounds over the catch for the same month last year. The catch amounted to 21,083,800 pounds, valued at \$1,224,796, according to a report of the Department of Marine and Fisheries. The increase was due to the increased catch of herring on the Pacific Coast.

Two thousand poultrymen from the United States will attend the forthcoming World's Poultry Congress, to be held at Ottawa July 27 to August 4. The delegates will be headed by the Hon. W. M. Jardine, Secretary of Agriculture, officially representing the Government. He will be accompanied by assistant secretary R. W. Dunlop. Some 25 States are participating.

That the prospects for British settlers coming to New Brunswick were good; that, in fact, arrangements had already been made for bringing a substantial number of British families to this province, was asserted by J. A. Murray, provincial superintendent of Colonization and Industry, who has returned from England where he was acting in the interests of the Government. He has received many enquiries as to the settlement prospects in New Brunswick.

call on you first.

A clergyman was conducting a funeral service in a western state when two shots were fired outside the church. The undertaker rushed out, but returned in a few moments smiling.

"I've secured both those customers for us," he whispered to the

parson, with pardonable pride.

Do you know anything about Marco Polo?

No, is it anything like clock Golf?

She: I'll never trust any man in the dark.

He (after scrap): It's a cinch

you have nothing to fear in the day time.

Optimism is the ability to speak of "my car" in the face of a chattel mortgage, six payments still to be made, a bill at the garage and a provincial license plate just round the corner.

## Timely Work

Have you more plowing to do this Spring because wet weather hindered you last Fall?

You can do all the work you plan and on time with a Fordson.

Here's what a Fordson will do—

Plow 5 to 8 acres a day  
Double Disc 15 to 25 acres a day  
Cultivate 15 to 25 acres a day  
Harrow up to 50 acres a day

Your 1927 farm profits depend on getting your crops in on time. Let us demonstrate a Fordson on your farm without obligation to you.

#### Cheap Electricity

Electricity is one item in the cost of living in Canada which is much cheaper now than in pre-war days. The Dominion Bureau of Statistics index number shows a reduction in the price of electricity for residence lighting of 31.3 per cent. from 1913 to 1926. Canada leads the world in the per capita distribution of electricity from central electric power stations.

#### She Has the Greatest Faith In Them Says Mrs. Elliott of Dodd's Kidney Pills

Alberta Lady Strongly Recommends  
the Use of Dodd's Kidney Pills to  
all Sufferers.

South Edmonton, Alberta, (Special) "I have used your Dodd's Kidney Pills for a few years and for kidney and backache troubles they have worked wonders. I have great faith in them. I have heard great praise about them from a number of people in our district."

This statement comes from Mrs. Elliott, who resides at 9224 70th Ave. The relief that Mrs. Elliott found has come to thousands of other Canadian women through the use of Dodd's Kidney Pills.

There are only a few people who appreciate the great importance of keeping the kidneys in good order at all times. The kidneys are the purifiers of your blood. If the kidneys become clogged with impurities they cannot perform their functions properly. The blood, instead of being purified, is poisoned, and in turn poisons the whole system, with the result that a condition may develop very serious.

French postal authorities have established a system of autograph telegrams, the signature of the sender being reproduced at the end of the message.

#### SUNDAY SCHOOL LESSON

MAY 22

#### PETER HEALS THE LAME MAN

Golden Text: "In none other is there salvation; for neither is there any other name under heaven, that is given among men, wherein we must be saved."—Acts 4:12.

Lesson: Acts 3:1 to 13:1.

Devotional Reading: Isaiah 55:1-6.

#### Explanations and Comments

1. Peter Heals a Lame Man, Acts 3:1-10. Nine in the morning and three in the afternoon were the hours for sacrifice and prayer. It was the hour, or three in the afternoon, when Peter and John, the two apostles so often mentioned together in the Gospel narratives, went to the temple to pray. They observed the lame man, for the only difference between the followers of Christ and other Jews was that they believed Jesus to be the Messiah. The realization that Christianity was meant to replace Judaism came to them very gradually.

There was always a place in the lives of the apostles for communion with God. Prayer had an "hour," a definite time and place in their program of living. Their Master had His hours of prayer. Have we?

At the temple door which was called Beautiful they saw a man sitting and begging alms of all who passed. He had been lame from birth, and was daily carried to the same spot to beg. Every one in Jerusalem must have known him well. "He was part of the city landscape, the people knew him as they knew the carved columns of the temple doorway."

There is a close connection between religion and philanthropy. Church goes are the great givers. Love of God finds expression in love to man.

The man was not expecting alms from every worshipper, and probably glanced indifferently at Peter and John. To rouse his attention upon them and arouse his expectations, Peter said to him, "Look on us." And the beggar gave heed to them. Then said Peter, "Silver and gold have I none."

He is the poor man who can say, "Only silver and gold have I."

"But what I have, that give I to thee," said Peter. You remember the story told by Turenoff of the Russian who put his hands in his pockets and found nothing there, and then said to the beggar before him, "I am sorry, brother; I have nothing with me, brother." And the beggar, touched by the word brother, said, "That too, was a gift, brother."

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

#### Paid to Change Name

Because of the great number of Andersons and Petersons in Stockholm, the Swedish postal department has suggested a government premium to those who will agree to change their names. The Andersons alone occupy 28 pages of the Stockholm directory.

#### GOLF STAR

When the British professional golfers come to Canada this summer, one member of the Canadian team chosen to meet them will probably be Jim Rimmer, the popular pro of the famous Jasper Park Lodge course, Jasper National Park, Alberta. Announcement of the visit together with a list of the Canadian pros invited to play the British team has been made by H. L. Anderson, secretary of the Royal Canadian Golf Association and Rimmer's name is included in the list.

Jim is a hard and accurate driver with either wood or iron and in the Old Country, where he was pro with the Bidston Club of Cheshire he has two victories to his credit over the famous A. G. Hayens. He won the professional championship of Alberta in 1926 and was runner-up in the Western Open, being beaten by another Canadian National Railway pro, Ned McKenna of the Minaki Lodge course.

A German biologist says orang outangs can sing. We know it. We have a radio, too.

With shifting scenes many a pretended friend shows up as an enemy.

#### WORLD HAPPENINGS BRIEFLY TOLD

Establishment of a crematory in Sydney, under the auspices of the Nova Scotia Government, is announced.

Announcement was made by Hon. Charles McCrae, Ontario minister of mines, that the geological exploration parties would operate in the province during this summer.

Toronto Chinese are raising funds to exhume the remains of 100 Chinese buried in Ontario with a view to sending them to China for reburial there.

A proclamation by the governor in council here invites the people of Canada to "contribute generously" to a Dominion-wide campaign for funds to be carried on on behalf of the Canadian Red Cross between May 21 and July 1.

The importation of potatoes into Canada from Europe, the Azore Islands, Canary Islands, Newfoundland, the islands of St. Pierre and Miquelon and the State of California, are prohibited under an order-in-council made public in the Canada Gazette.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subsist. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

#### Winnipeg Newspaper Union

The Simple Frock Is By Far the Smartest Frock

This pretty frock of brightly-printed crepe is appropriate for all day wear. Cut with a little standing collar opening back to form a V, it slips on over the head, and has a few gathers in the shoulders of the straight bodice, which accents the low waistline, where it joins the flaring skirt front. The back of the frock is plain, and the long sleeves gather into narrow wristbands. No. 1222 is for the miss and little woman and is in sizes 16, 18 and 20 years. Size 18 years (36 bust) requires 4 1/2 yards 36 inch figured crepe. Price 29 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 19 cents the copy.

#### Firestone

Dips the Cords of  
the Carcass in a  
Rubber Solution!

Here you see one of the cords, highly magnified, from a Firestone Gum-Dipped Balloon Tire carcass. The end is unravelled into 15 smaller cords, composed of millions of cotton fibers. Firestone dips all the cords in a rubber solution. Every fiber is saturated and insulated with rubber, adding great strength and enabling the cords to flex with minimum friction.

Go to your nearest Firestone Dealer to-day. He will provide these "Better Tires" along with helpful service, which means extra mileage, safety and comfort.

#### For Improved Highways

Huge Sums Spent Last Year for  
This Purpose

During the year 1926 a total of \$15,563,000 was spent on construction and maintenance of all provincial highways in Canada, according to computation made by A. W. Campbell, Dominion Highway Commissioner. Of this total \$9,858,000 was spent on construction and \$15,987,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,821.

#### Could Not Sleep Heart and Nerves Were So Bad

Mr. Geo. Meek, Windsor, Ont., writes: "I suffered with my heart and nerves and could not sleep at night for noises in my head. I managed to keep at my work somehow, until I began to have dizzy spells which got so bad I could not go to my work. I was afraid to go out any place, for very often I would stagger on my feet, and everything in front of me would turn black and fade away. While I was home sick a friend told me to take I got four boxes and by the time I had used them the pains and noises in my head ceased and I was able to get a good night's rest. Although that was six years ago I have never been troubled with that complaint again."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

#### CONSTIPATION

A cause of many ills. Harmful to elderly people. Get relief without griping or nausea with Chamberlain's Tablets. Set your liver right—25c

## NO RETALIATION ON ACCOUNT OF BORDER RULING

Quebec, P.Q.—“There will be no effort at retaliation on the part of Canada because the United States have chosen to restrict the movement of Canadians who are employed in the United States, and we are hoping that the whole matter will be amicably settled at the conference,” declared Hon. Robert Forke, Minister of Immigration in connection with news despatches that the Department of Immigration had decided to investigate the number of Americans employed in this country as a means of retaliation against the United States measure.

Hon. Mr. Forke sailed from Quebec on board the Empress of France, for a three-months' tour of Europe. He was accompanied by Mrs. Forke and just prior to the liners' sailing, quite an interesting event took place when a diminutive bell boy made his way to the cabin occupied by Hon. and Mrs. Forke, and therein deposited huge bouquets of American Beauties and other flowers. There were a dozen or so bouquets among which was one from the local staff of the Immigration Department.

The Minister of Immigration stated that he was going over to Europe to look over the immigration conditions and matters there, and also to see whether there were any suggestions to be made to the Imperial Government and others as to beneficial changes which may be made.

A possible increase in the 3,000 family scheme whereby the number of families which will come out to this country under the plan will be increased to 5,000, was voiced by the minister.

“Of course,” said Mr. Forke, “this is a matter that is largely up to the Imperial Government, but as regards the 1,200 odd families that are scheduled to come out under the scheme this year, we will place them if we can find the land.”

## Must Surrender Aims To U.S. Government

General Disarmament in Nicaragua  
Essential if States Supervise  
Election

Managua, Nicaragua.—Plans are under way to drop from aeroplanes and otherwise distribute thousands of copies of a proclamation drawn up by Rear Admiral Latimer, commander of the United States naval forces in Nicaraguan waters, saying he has been directed by the United States government to accept the custody of the arms and ammunition of those willing to give them up, including the government forces, and to disarm forcibly those who do not peacefully deliver up their arms.

“The United States government,” the proclamation declares, “having accepted the request of the Nicaraguan government to supervise the elections in 1928, believes general disarmament necessary for the proper and successful conduct of such elections.”

## Large Bequest for Charity

Wife of Prominent Winnipeg Financier Leaves \$200,000 to Foundation

Winnipeg.—The Winnipeg Foundation, established several years ago for charitable purposes, benefits to the extent of \$200,000 through a bequest from the will of the late Mrs. Wm. Alloway, which has been made public. Mrs. Alloway, who died last year, leaves her entire estate to the foundation. The amount is exempt from succession duties. Mrs. Alloway was the wife of William Alloway, prominent Winnipeg financier.

## Non-Stop Flight to India

London.—Announcement has been made that Lieut. C. R. Carr, as pilot, and Flight Lieut. L. S. M. Gillman, in a big specially constructed Horsley-Keece machine which passed its test at Brooklands, will start probably on May 20 from the Cromwell aerodrome in Lincolnshire on a non-stop flight to India, a distance of 4,000 miles, which they hope to accomplish in 48 hours.

## Forecast Heavy Grain Shipments to Europe

Large Volume of Tonnage Has  
Already Been Chartered

Fort William, Ont.—Record grain shipments have left head of the lakes ports since the official opening of navigation April 18, according to a report issued by E. A. Ursell, statistician to the grain commissioners.

Shipments to April 30 totalled more than 40,000,000 bushels and heavy export shipments from seaboard ports to Europe during May and during the early part of June are forecast in the report.

Mr. Ursell says:

“From reports received from different sources, the export movement from Atlantic seaboard ports to Europe will be very heavy throughout May and at least the early part of June. A very large volume of tonnage has been chartered already, aggregating close to 10,000,000 bushels of all grains. These heavy purchases undoubtedly are occasioned by a more or less urgent need of grain. Although statistics of the world's wheat show an ample surplus of supplies in exporting countries over indicated requirements by importers, the shortage of the rye and potato crops of 1926 are partially responsible for a larger wheat consumption.”

It is apparent, Mr. Ursell points out, that a large portion of export grain will be shipped via United States Atlantic seaboard ports, a heavy volume of tonnage having been chartered, much of it rates around 12 cents per 100 pounds to some British ports and Antwerp-Rotterdam.

## Ready to Test Beam Service

Messages Between Canada and Australia Possible Within Six Weeks

Melbourne, Australia.—It is officially stated that the Marconi beam service between Australia and Canada is now practically ready for testing purposes. The aerial transmitting station is almost completed and the assembling of the transmitting apparatus well advanced.

Hopes are entertained that the service will be in operation within six weeks or possibly a month.

Montreal officials of the Marconi company confirmed the above report, declaring that the situation in Canada was practically the same as in Australia.

Mr. Thompson, the chief engineer, said that the messages from Australia would be received by the apparatus at Yamachiche, near Three Rivers, and that Canadian messages to the Commonwealth would be despatched from Drummondville, Que.

He expected the beam system would be functioning properly within six weeks.

## No Change in Policy

Britain Will Keep Mission to the Holy See

London.—Maintenance of an official British representative at the Vatican now can be regarded as a permanent policy of the British Government, Sir Austen Chamberlain, the Foreign Secretary, announced in the House of Commons.

“The Government does not intend withdrawing the mission to the Holy See,” said Sir Austen. “It was found convenient to establish this delegation at a time of international trouble and difficulty, and to withdraw it now would be an almost offensive action to adopt.”

British relations with the Holy See were established in 1914.

## Says Water Stew Aided Tragedy

Toronto.—Sir Frederick Stupart, director of the Toronto bureau of the Dominion Meteorological Office, expressed the definite opinion that if any excess of water had not been taken from the Great Lakes system through the Chicago drainage canal, the raging Mississippi floods that have taken such toll of life and property would have been very much less severe.

## Ministers Doing Double Duty

Ottawa.—Hon. J. A. Robb, Minister of Finance, will be acting minister of trade and commerce during the absence of Hon. James Macdonald in Europe, and Hon. Charles Stewart, minister of interior, will be acting minister of immigration while Hon. Robert Forke is in the Old Country.

## GOOD PROGRESS BEING MADE ON H. B. RAILROAD

Mill 320, Hudson's Bay Railway.—Following completion of a trip of inspection to the end of steel on the Hudson's Bay Railway, Hon. Charles A. Dunning, federal Minister of Railways and Canals, declared he was gratified by the amount of work completed and agreeably surprised at the manner in which the rehabilitation of the line has advanced.

Weather and other conditions, coupled with some difficult engineering problems, had tended to interfere with the progress of the work, but Mr. Dunning felt that these had been ably met and that, allowing for the late spring, those in charge of the building program now have their schedule well in hand.

The trip to Kettle Rapids, on the Nelson River, was made by train and from there to the Limestone River, Mile 350, the end of steel, by speeder. The terminal under construction at Bowden, Mile 437, was inspected Wednesday, Mr. Dunning and party inspecting the roundhouse, coaling plant, machine shop and other work now underway at that point.

W. A. Kingsland, general manager, Western region, Canadian National Railway; H. A. Dixon, chief engineer, and J. G. MacLachlan, divisional engineer in charge of construction, accompanied the minister on his inspection tour.

## Increase in Canada's Trade

Total During Twelve Months Shows  
Advance of Forty-two Millions

Ottawa.—Canada's total trade in 1925, according to the latest figures released, showed an increase of approximately \$12,000,000 during the twelve months of the fiscal year ending March 31. Total trade for the 12 months was \$2,298,165,647, as compared with \$2,256,928,869 for the previous 12 months and \$1,878,291,180 in the 12 months ending March 31, 1925.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$103,000,000 in imports when compared with the 12 months of the previous fiscal year.

## Want Labor-saving Devices

Geneva.—Women delegates to the International economic conference contributed their bit today to the plans for the world's economic restoration. They introduced a resolution for the creation in all countries of committees comprising of housewives and manufacturers to establish practical types of household utensils which would economize labor both in the home and in the industrial production of such articles.

## To Build Big Hospital

Toronto.—Mrs. A. E. Huestis, recently introduced a deputation representing the Women's College Hospital to the provincial secretary. It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

Returns From World Tour

Mrs. George Stephen, Winnipeg, who arrived in New York April 12 on board the Canadian Pacific flagship Empress of Scotland, having completed a 70-day tour of the world, visiting twenty countries. Mrs. Stephen was in Shanghai and Peking about two months previously.

## Irish Free State Cannot Claim Bonds

Is Not Successor to Irish Republic  
Says U.S. Judge

New York Supreme court justice Peters dismissed the suit brought by the Irish Free State claiming to be successor of the “Irish Republic” and entitled to the \$2,500,000 bonds, the unexpended portion of more than \$6,000,000 subscribed for in the United States for the republican cause.

Justice Peters also denied the claim of Eamon De Valera and his co-trustee, O'Mara, to the bonds and ruled that the proceeds from the sale of the bonds here should revert to original subscribers.

Justice Peters, in his decision, refused to allow the claim of the Free State that it was a successor to the self-styled Irish Republic, on the ground that, as a de facto government the republic had never existed and therefore could have no successor.

## Many Unemployed Men Available for Farms

But Demand in Alberta is Expected  
to Drop Off

Edmonton.—With about 5,000 men placed in farm employment throughout the province this season, the peak of the spring farm labor situation has been reached, according to Walter Smith, commissioner of labor, and from now on the demand will be steadily dropping off. There are still a great many unemployed men available for work on the farms if wanted, but the lateness of the season, the reduced acreage in consequence and the influx of immigrant labor are combining to restrict the calls for help from Alberta farmers.

Notwithstanding the more or less unusual features of the situation this spring, the total number of men placed is not greatly below that of last year. About 5,600 placements on farms were made for the same period a year ago.

## Can Deport Immigrants Who Refuse Positions

Department Has Power to Deal With  
Such Cases

Ottawa.—A week of good weather would clear up any congestion of immigrants in the western cities, it was stated at the Immigration department offices. The seedling being so late this year has meant that the usual demand for farm labor has been retarded.

The department stated that if, as reported, men who had entered the country as farm workers are refusing to take positions, deportation was the quickest and most effective method of dealing with such cases. The department has the power to send immigrants back to their countries of origin if they refuse to take work when it is offered.

## Parties Almost Even

St. John's, Nfld.—A legislature in which the parties are almost evenly divided opened its session here May 1. Premier Monroe will have 18 followers in the legislative assembly, while the oppositionists will number 17.

## SOLVES PROBLEM OF ELIMINATION OF WEED PESTS

London.—The problem of the scientific elimination of certain weed pests, which has baffled researchers in America and Europe for 50 years, has been solved, it is claimed, by a young Canadian scientist, Leonard Huxkins, of the University of Alberta.

At the Royal Society here, he showed the results of two years' experiments at King's College, London, and the Horticultural College at Meriton, to which he recently has been appointed. Professor Huxkins' discovery, which is of great value to farmers, as it is expected to bring about an appreciable improvement in cereal crops, consists of tracing the reversion to the wild type of the so-called false wild oats, which are a well known pest in Canada and the United States and elsewhere. Irregularities in the chromosomes, were found to be responsible for these abnormal reversions, which also occur in wheat and other food plants, and it is asserted that through this discovery it will be possible to produce varieties of plants containing only the normal type of chromosomes, which never produce degenerate forms.

## May Press For Settlement

Possible Claim May be Filed Over  
Seizure of Federal Ship

Vancouver.—Possible filing of claims by the Consolidated Exporters, Limited, against the United States Government, in connection with the recent seizure of the liquor-laden steamer Federalship was indicated here by Harold Faulkner, San Francisco attorney, who was in Vancouver conferring with officials of the company. Mr. Faulkner states that, because of admittedly illegal seizure by the United States of a vessel of foreign registration, the way is open for normal and physical claims in connection with damages sustained by the company and crew. According to Mr. Faulkner, it is the purpose of the company to go into the matter immediately and, if claims are sufficient to warrant such a procedure, to press for settlement.

## Strange Phenomenon In Owen Sound Harbor

Water Moved Out and Returned Much  
Above Normal Level

Owen Sound, Ont.—Waters in Owen Sound harbor and the Sydenham river were stirred up greatly recently, and no reason has been found for the phenomenon. Within a few minutes the waters in the harbor moved out so that the level was two feet lower than usual.

When the water returned, the level was much higher than under normal conditions. At one time the waters in the harbor got so low that some boats were resting on the sand at the bottom.

## Sends Demand To China

Japan Wants Soldiers Removed From  
Consulate at Nanking

London.—Japan has prematurely demanded that the Chinese authorities at Nanking give orders immediately for the withdrawal of soldiers who occupied the Japanese consulate at Nanking after the outbreak of March 24, says an Exchange Telegraph despatch from Tokyo.

The demand, the despatch states, was not sent in the form of an ultimatum, but it is expected in Tokyo that the Chinese will comply without hesitation.

## Task for Boy Scouts

Ottawa.—The Boy Scouts' Association of Canada has offered its services to the national committee for the celebration of the jubilee of Confederation, and has requested that to them be allotted the task of decorating the graves of the Confederation Fathers. Where the graves of the fathers are distant from central points, the Scouts will delegate faithful members of its order to perform the task. Simple wreaths of Maple Leaves will form the decoration.

# Aerial Attack On Black Rust To Be Launched This Summer By The Dominion Government

An aerial attack on black rust, one of the most serious enemies of Canadian grain-growing, will be launched this summer in an experiment by the Dominion Government.

Two aviators, who were sent down to the cotton fields of the Mississippi, and there for a week studied the methods recently adopted for fighting the boll-weevil, with it is said, remarkable success, will give instruction for carrying on a similar campaign when the time arrives this summer, one in Eastern and one in Western Canada.

Wing Commander Anderson of Camp Borden said the aviators chosen were from that aviation body, that the aeroplanes would be taken from the camp, and returned there when the summer was over. The campaign, however, is being directed from Ottawa.

"In order to be effective," Wing Commander Anderson said, "the flying has to be done as close above the growing crops as is safe. The dust is contained in a special apparatus on the aeroplane, and considerable practice is necessary to operate it efficiently. Wind conditions have to be taken into account, and the dusting is only done while flying in a certain direction, relative to the direction of the wind."

So serious had the losses from black rust in the cereal crops of Western Canada become that in September, 1921, a conference was called at Winnipeg by the department of agriculture and the Research Council of Canada. As a result of this, a series of experimental projects, covering all phases of the subject, were mapped out to be carried on in Western Canada. The present aeroplane attack is a continuation of these experiments.

## Sugar Beets

Proper Cultural Methods Will be Adopted in the Raymond District

Beet seedling began in the Raymond district the middle of April. J. W. Evans, of the agricultural staff of the Canadian Sugar Company, was the first to begin drilling in this district. As field supervisor he is urging beet growers to adopt cultural methods in order to conserve moisture, so that a good germination of seed might be ensured. A good stand of beets, he said, is a vital factor and the first essential towards heavy tonnage at harvest time.

## Winnipeg Stock Yards

Better Prices Bring Greater Returns Although Volume is Higher

Last year 492,129 head of cattle and 392,329 hogs were marketed through the Winnipeg Public Stock Yards, and realized \$32,047,000. Though the number of animals marketed was less than the 1925 record, the monetary return was \$1,000,000 greater, owing to the better prices that prevailed. Ontario feeders took 45,590 and 41,000 went to the United States feed lots, and 17,355 went to Manitoba farms. Sheep and lambs to the number of 55,859 were marketed, compared with 36,600 in 1925.

## A Question of Safety

Keep your eyes to the front at all times while driving. Don't become so intense in your conversation that you must turn your head to address the person beside you or those in the back seat. Things happen suddenly in these days of swiftly moving automobiles, and the lapse of attention from the road for an instant may lead to a serious accident.

## Canada's Only Blind Operator

The only blind woman in Canada who operates a switchboard is Miss Ethel Squire, of Toronto. She looks after the telephone calls at the Canadian National Institute for the Blind on Beverley street and works her board with speed and efficiency, completing her calls in the regulation ten seconds allowed at the ordinary telephone exchange.

When it comes to silent partners many a non-pecked husband fills the bill.

W. N. U. 1681

## Brings In Good Revenue

Flour Milling Industry in Canada Shows Remarkable Growth

The Canadian flour milling industry is one of the main sources of Canadian industrial revenue; this manufacture vying with the pulp and paper industry for leadership among Dominion industrial activities in point of value of annual production. A recent government survey covering this industry since the first Dominion census was taken in 1871, reveals the remarkable growth of flour manufacture in Canada, which has in the time placed its product on markets all over the world and made it as potent an advertiser of Canadian quality as the country's wheat. The development of the manufacture of flour in Canada has, in fact, very largely corresponded with the settlement and cultivation of the great wheat-growing territory of Western Canada, and it is reasonable to suppose that the future of Canadian flour production will be gauged to some extent by further settlement in the wheat-growing areas, which have recently been considerably expanded.

## Winnipeg Newspaper Union

Navy Blue is Smartest

If you are partial to the straight silhouette, you will find much to admire in this distinctive frock of navy crepe. The straight bodice smartly fastens under a flat plait at the centre front, and a suggestion of the flare, now so popular, is achieved by the use of inverted plaits running from the curved lower edge of the bodice front to skirt hem. The back is in one piece and quite plain, except for a narrow belt caught in the side seams, which ties in the centre back. The collar is of the convertible type, to be worn high or low, and the long set-in sleeves have tab cuffs fastening at the wrists. No. 1320 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 2 1/2 yards 54-inch navy crepe; 5/8 yard white crepe. Price 29 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

## To Stamp Out Disease

Continuation of Educational Campaigns Will Be Necessary

A survey of health conditions during February across the whole continent, including Canada, has just been concluded by Metropolitan Life statisticians. The excellent health conditions which prevailed during January, continue.

Compared with February, 1926, there are pronounced declines in death rates from measles, whooping cough, influenza, heart disease and pneumonia. Rates for typhoid, scarlet fever, diphtheria, diabetes, respiratory diseases other than pneumonia, suicides and accidents were more or less higher.

So far, this year, there has been no alarming increase in the death rate from any disease but the small increase in diphtheria mortality constitutes a challenge to health workers. Since 1922, due to intensified campaigns for immunizing children and educational work, the disease has been registering a new low point each year. The death rate dropped 60 per cent between 1921 and 1926 and this success was perhaps the greatest single sanitary accomplishment of last year.

There has not yet been time to determine, definitely, what is the exact cause of this increase, but preliminary research seems to indicate that the type of disease now prevalent is of above-average virulence.

At any rate, the situation calls for increased watchfulness, a continuance of educational campaigns and an intensified effort to stamp out the disease.

## The Art of Time Saving

Room for Many More Improvements Along That Line

In the old-fashioned kitchen our mothers walked many useless miles. The modern householder, if guided by intelligence, puts sinks, kitchen tables and cupboards in right relationship and saves steps every day so long as the house stands. But there is room for many more of such improvements and ample rewards awaiting those who can think. Time is worth more than it used to be. There are so many more things to do with it if it is saved. When our systems of education are broadened to meet the full requirements of modern life, doubtless they will give place to training in the simple yet mighty important art of time-saving.

## Keeps Oath of Allegiance

Abolition of the oath of Allegiance to Britain was advocated in a bill which came before the Dail Eireann, but which experienced a quick death. President Cosgrave opposed it in the initial stage, saying that Ireland is in honor bound to observe the international agreement, namely, the Anglo-Irish treaty. The bill was defeated forty-seven to seventeen.

It is better to be slandered by some men than to be praised by others.

# Party Of Canadian Farmers Will Leave For Europe To Study Marketing Conditions

## Kansas City Woman

Is Customs Expert

Well Known to Officials All Over the World

A Kansas City woman, known in home and foreign posts as A. D. Jones, customs broker, has opened a new and interesting profession for women. Hanging out her business shingle twenty years ago before a Kansas City business office, Mrs. Jones has become one of the best-known customs experts in the world.

During the war vast shipments of raw materials and supplies were managed by Mrs. Jones at her desk in the inland port of Kansas City. While train after train passed through the Kansas City yards laden with ores from South America, Australia and the Orient bound for Oklahoma and Arkansas smelters, Mrs. Jones computed for the Government the duty on them and saw them properly invoiced and on their way.

Mrs. Jones had made an extensive study of customs law and treasury decisions before entering her profession. She has a keen legal mind that enjoys a tussle with the regulations of the rapidly changing tariff laws, and she has now expanded her services to such worldwide proportions that she is known to customs officials in every civilized country in the world.

## Politicians From U.S.

Former American Citizens Enter Politics in Western Provinces

Hon. O. L. McPherson, minister of public works in the Alberta provincial government, is a native of Kingman, Kansas. He moved to Vulcan, Alberta, in 1907 and began farming there. He now owns a 2,400 acre farm. Shortly after his election to the Legislature in 1921, when the farmers' party was voted into power, he was appointed Speaker and continued in that office until he resigned a few months ago to accept the portfolio he now holds. Ten other members of the Alberta Legislature came from the United States, and all have made a success of farming in Western Canada. Six members of the Saskatchewan Legislature also came from the United States.

## Old Oak Canoe Found

An oak canoe, nine feet long, and estimated to be from four to ten thousand years old, has been unearthed on the south bank of the river Tyne, near Ryton. It is in an excellent state of preservation, and has been placed in the Hancock Museum, Newcastle-on-Tyne, England.

It takes a featherweight wife to make the heavyweight husband shake in his shoes.

## Champion Cow

Another champion cow has made its bid for fame, this time appearing on the eastern horizon. She hails from Cumberland County, Nova Scotia, being discovered at Fox River. "Rossamond" as this cow has been christened, is the property of Harry G. Kerr who claims she is going to eclipse the records of Betsy Wiley the Nova Scotia world's champion milk and butter producer.

"Rossamond" is a Durham grade cow and she has produced 392 pounds of milk in one week, which churned 20 1/2 pounds of butter after deducting approximately 12 quarts of milk and 1 1/4 of cream for home consumption. This record is creating keen interest.

The Canadian farmer is going abroad next year. He is going to study for himself at close range, in the very heart of the world's great markets, just what happens to his products when they reach the ultimate market, and he is going to learn a little more about how he can extend his business with this ultimate market.

A party of between 100 and 200 Canadian farmers and agriculturists will sail from Halifax, early next year, and under direction of Canadian National Railways officials, will visit all the important marketing centres of Great Britain, with visits to some of the famous livestock breeding farms, and a side trip to Denmark, for a special study of co-operative marketing. Dr. W. J. Black, director of agriculture, colonization and natural resources of the Canadian National Railways, has announced this plan, which is being arranged in Canada by C. G. Groff, former publicity commissioner for Alberta, and in England, by E. A. Weir, of the London offices of the Canadian National Railways.

A tentative outline of the program suggests visits to the wheat exchanges in Liverpool and London, some of the mills, the Merkeland wharves in Glasgow, where live Canadian cattle are landed and sold by auction for slaughter or for finishing on Old Country feed lots, and a side trip to some of these feed lots; the Smithfield market in London, and Covent Garden, the great fruit and produce market. Canadian butter, cheese, bacon and fruit, on British markets will also be seen.

The farms of some of the most famous breeders, particularly of Shorthorn cattle and Clydesdale horses, will be visited, as well as districts where other noted breeds of livestock have been developed.

In a three or four-day trip to Denmark, visits will be paid to co-operative bacon factories, dairies, egg societies, as well as to some of the educational institutions.

## Money in Sheep

Saskatchewan Farmer Finds Sheep Raising a Profitable Venture

A Saskatchewan farmer relates his experience in sheep raising as follows: "We kept 40 ewes through the winter of 1925-6 and fed them on oat sheaves, chaff and hay consisting of a mixture of wild upland hay, slough hay and sweet clover. The next spring the ewes dropped 41 lambs, all of which we raised. The wether lambs were sold for \$9 each and the ewes were kept for breeding purposes. The wool clip averaged about 7 pounds per head and sold for 35 cents per pound. We find that sheep will keep the cultivated land free of weeds if they are allowed to pasture on it."

## Still Marketing Grain

C.P.R. Handling Grain at the Rate of 130,000 Bushels Daily

The Canadian Pacific Railway reports the marketing of grain at the present rate of 130,000 bushels daily, as compared with 128,376 for the corresponding season of last year. Manitoba's 180,000 compares with Saskatchewan's 533,000 and Alberta's 366,827. Loadings are also above last year's record with 220 cars daily. Country elevator storage stands at 10,673,133 bushels, showing that there is still plenty of grain in the country.

## Why He Was Interested

"Well, my little man, said the artist, 'you've been gazing at me all through the dinner and I feel greatly flattered. Would you like me to tell you a story?'"

"No, Mister," said the kid, "but Mama told me you had a reeding clin. Won't you do it for me just once? and then I'll show you how I can wiggle my ears."

Mail service in Austria recently was suspended because a postoffice employee failed to doff his hat to the postmaster. Fellow employees offended at the postmaster's reprimand, declared a strike.

## "Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured in that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and my stomach gave me end of trouble. Gas and pains would bring on fainting spells.

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that I could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me.

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I've gained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Strange, Romantic Love Adventures of the Flapper you know!

### CHAPTER XXXV—Continued

Dormister also captured her for a fleeting moment. He found her standing at the side of one of the fairy pools, shut off from view by a cluster of columns which supported one of the arches that spread the imitation moonlight. The little lake was one of those that were permanently part of the landscape scheme of the grounds, and the home of a group of swans. One of the majestic creatures, petulant at the noisy foray upon accustomed hours of slumber, had approached the slender figure at the water's edge angrily, with a rasping protest. When it saw that the single form was that of its mistress it smoothed its wings and craned its neck toward her. She had offered it no crumb but it did not withdraw its outstretching head. Its beaklike eyes remained fixed upon her. The appearance of Dormister, who had trailed her, drove the water bird away. Joanna turned on the newcomer.

"Why did you come just then, Teddy?" she protested. "I think in another minute it would have sung. I've always wanted to know what a swan's song sounds like!"

"Then listen to me," he returned, gaily. "I'll make mine merry. I'm always singing when I'm with you, you know."

"Singing foolish riddles, Teddy. Only foolish ones. You mustn't do

that now. I'll permit no one to be serious—or disconsolate."

He wanted to talk of himself, and of her. It was the subject he always fell upon, but she outwitted him easily. She was about to command him to take her back to her guests, when she was suddenly pale. Teddy saw and looked about quickly. John had trailed her, too, and was coming up to them. Teddy knew the significance of that sudden paleness, and went away with a gaily easy word over his shoulder.

"I've tried to get to you all day!" John exclaimed. He tried to reach for her but she eluded him.

"I have been busy," she explained, simply. "There's been so much to attend to—bills to be gathered up and put in a package before they're lost. And other things to do. I've seen no one today."

"Will you give me time, Jo, to talk with you? I can't be frivolous like everyone else, tonight. I'm full of something that is for you. Can't we have a half hour?"

"Some other time, John. Tomorrow or next week, perhaps. There's no room inside of me for anything but idle chatter. You may take me back to my guests."

"Tomorrow, then."

"Tomorrow."

She let him have her hand for a moment, but withdrew it gently. Once or twice she stole a glance into his eyes and saw that they teemed with earnest things, just as his lips had spoken only inner anxieties. When they were about to move out of the shelter of the flower-bung pillars he took her suddenly in his arms. She did not resist, but yielded to him flimsily. He felt no response in the slim little body and released her. He was conscious though, that in that embrace he had said much that he wanted to say, and that she would understand. He was more content, then, to wait until the morrow.

The hours passed, gay, colorful hours, that were speeded by a continuous piling up of festival surprises. No grand duke in the old days had confounded his guests with a more stupendous program of sense entertainment. But always there is a climax to such affairs—such for instance as that time when an oriental potentate endowed his favorite companion, during a celebration on the Amette grounds, with a marvellous coat of emeralds. The guests of Joanna and Yvonne knew this time had arrived when, shortly after two o'clock when the fragrance of mimosa was heaviest, the moonlight arcs were swung by invisible hands until their mellow glow was concentrated upon the long, low pavilion built behind the Trianon house. There had been a mystery about this pavilion that had whetted curiosities. During the earlier portion of the night it had been wrapped in darkness. Now it was bathed in

brilliance, and a hitherto unheard orchestra was playing symphonic strains that contrasted strangely with the more accustomed jazz.

With shrill laughter and strident exclamations the guests swarmed down upon the lighted pavilion and surged between its columns into the little sea of seats provided for them before a stage draped by a quivering curtain of lower petals. When the guests all had found their way inside the pavilion the footmen and waiters began their task of gathering up the various paraphernalia of the night, and chauffeurs moved toward their waiting cars. Whatever was to transpire within the arbored pavilion, it would be the breaking up of the Golden Girl's fête.

Kentworth and Yvonne walked together to the cluster of seats that had been reserved for Joanna and her closest intimates. They saw that Teddy Dormister, and Betty Weymouth, Prince Mielgrel and others who would naturally be of their party, had found their places. Brandon's absence from the fête already had been commented upon. But both Kentworth and Yvonne were curious when they saw that Joanna was not among her guests.

"More of mystery," Kentworth observed. "Have you yet discovered what this personally arranged affair of hers is going to be?"

"She has guarded her secret tenaciously," Yvonne replied. "It has been the main thrill of her preparations—arranging something of which nobody but she has known anything. I have not tried to get her confidences."

They decided to look about for her, but Joanna just then came up.

When Yvonne looked, suddenly, into her face, she started. The Golden Girl's eyes were shining. Yvonne sensed the tenseness of a suppressed excitement. She advanced to meet the girl, and stood with her a moment.

Stragglers brushed by them. They would have surrounded the two hostesses, but Joanna urged them all to join the crowd under the minuscule roof. When there was opportunity she took both of Yvonne's hands in hers.

"Whether my little climax is a success or a failure," she said, very softly, "or whatever happens, I want you to know my dear that I have understood many things right along, and the best of them was—you and John!"

She dropped the older girl's hands, then, and went toward the hidden door that led from the outer lawn onto the stage behind the flower curtain. Yvonne reached out to catch at her, but was too late. She stood, undetermined, until Kentworth approached her. She went with him to their seats before the stage. As if their arrival were a signal the leader of the orchestra raised his baton. The lights were extinguished. The curtain of flower petals parted. There was deathly stillness, then, like the breaking of a great wave in to surf gasps swept up from the audience.

### CHAPTER XXXVI Conclusion

The curtains spread upon vague shapes that took form in a phantasm that slowly emerged from a vapor of pale blue light. Out of a far background, admirably conjured by skilled artists, spires and domes and gabled roofs of a conglomerate city loomed. Illuminated windows shone dully. Miniature streets, crooked and narrow, came down out of the perspective and converged upon an open space before the invisible footlights—the painted city's market place.

In the centre of the square a pillar arose, with a rim of water trough at its base. Against this column, her head bowed, shoulders drooped and motionless body limp in a posture of despair, leaned an unknown girl, of some warm pulsed type, her body gleaming white through a diaphan-

## HIKERS

**DOES NOT AFFECT THE HEART**

**Safe** Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acetic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

ous drapes—a girl who was fresh and young and lovely. Hunched before the youthful figure three old crones in the garb of witches swayed in rhythm with the plaintive song of the orchestra. In the hands of each a lantern swung, its flame shedding a dim, colored glow. Even as the audience gasped at the weird symbolism of the picture—a vibrant, beautiful, unsmiling girl hemmed in by evil witches—one of the old crones, one whose lantern glowed in sickly yellow rose and still swaying to the music lifted her light so that its yellow rays bathed the body of the girl. Across the sky over the painted city in the background, great letters made by invisible lamps manipulated from behind the stage slowly took shape and, like a fantastic reflection, spelled the word, "MISUNDERSTANDING."

(To Be Continued)

## MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the newborn babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Little Helps For This Week

If thine enemy hunger, feed him; if he thirst, give him drink; for in so doing thou shalt heap coals of fire on his head. Rom. xii. 20.

But if for wrongs we needs revenge must have,

Then be our vengeance of the noblest kind:

Do we his body from our fury save, And let our hate prevail against our mind?

What can against him a greater vengeance be

Than make his foe more worthy far than he

—Lady Elizabeth Carew.

If thou must needs have revenge of thine enemy, with a soft tongue break his bones, heap coals of fire on his head, forgive him and enjoy it. To forgive our enemies is a charming way of revenge and short. Caesar's conquest, overcoming without a blow; laying our enemies at our feet under sorrow, shame, and repentance; leaving our foes our friends, and sollicitously inclined to grateful retaliation.

—Sir Thomas Browne.

Conscientious people are like ideas. They refuse to strike a man when he is down.

### Home-land Filings

Home-land filings in Western Canada during the first quarter of 1927 totaled 1930, as compared with 1282 in the corresponding period of 1926. In Manitoba 138 quarter sections were filed upon, in Saskatchewan 513, in Alberta 267, and in British Columbia 12.

**Nation-wide Fame.**—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

### Thriving Swiss Settlements

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland here. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettler, Alberta.

**Useful in Camp.**—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or corn, or sprain be sustained, nothing could be better as a dressing or lotion.

When a young married man gets sick his mother always imagines that it is due to his wife's cooking.

Treat corns with Minard's Liniment.

A French scientist has invented a vacuum bottle to hold liquid oxygen for use of aviators in altitude flights. The liquid vaporizes as fast as it is breathed.

**Appetite Gone? Nervous? Why Wait for a Breakdown?**

Mrs. I. Hicks

London, Ont.—"Dr. Pierce's Golden Medical Discovery is the tonic I took when in a weakened and rundown state of health and it strengthened me at once. My appetite improved, and my nerves became normal. In fact I have felt so much improved in health since I took the 'Medical Discovery' that I would never hesitate to recommend it to any other person who is in a debilitated and nervous condition. It is the only tonic I would ever take again if necessary."

Mrs. I. Hicks, General Delivery.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists, in both tablets and liquid. Send Dr. Pierce 10c if you wish a trial pkg.

## PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well." Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

### Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sensitive Wash I am feeling better than I have for the past seven years, and advise my friends to take it." Mrs. F. JOHNSON, 49 Moore Street, St. Thomas, Ont. C

**Here and There**

Experiments in the Pacific Coast  
methods of halibut fishing are now  
being made by R. B. Cann, of Yar-  
mouth, N.S., with his new halibut  
fishing boat, "Fannie Powell II,"  
following his extensive studies on  
the Pacific Coast.

The Canadian Pacific's gross  
earnings for the first quarter of the  
year were the largest on record for  
that quarter, at \$43,236,009, or an  
increase of \$2,891,051 over the cor-  
responding quarter of last year. Net,  
however, was a little lower than last  
year at \$6,462,628, compared with  
\$6,531,067.

**LITTLE ITEMS OF  
LOCAL INTEREST**

At a meeting of the Carbon  
Wheat Pool Local, held on Satur-  
day last, the following officers were  
elected for the coming year:

President: F. Barker.  
Directors: D. I. Halstead, R. S.  
Shaw, J. Gordon, W. H. Levens,  
and G. Oldhauser.

John Atkinson was nominated as  
Candidate for election as delegate  
to the annual meeting.

D. McFarlane motored into Car-  
bon on Sunday, when he took Mrs.  
A. Bertsch as a patient to the Holy  
Cross hospital.

Miss Margaret Matchett leaves  
on Friday for Rockyford, where she  
has accepted a position with Mrs. J.  
J. Dahm.

Alfred Braisher returned Mon-  
day from Calgary, after spending  
he past year attending Technical  
school there.

Word has been received that  
Miss Ellen M. Wiertz, who gradu-  
ated from the Holy Cross hospital,  
Calgary, on April 22, has accepted  
a position in the hospital at Cabri,  
Sask., where she will have charge  
of the operating room there.

Mr. Charlebois and two sons,  
Art and Eugene, returned from a  
visit to Calgary on Saturday last.

S. E. Peters returned on Monday  
after spending the past week in  
Calgary.

J. A. Smith, High School In-  
spector, visited the local seat of  
learning on Friday last and seemed  
well pleased with the work of the  
pupils of the Carbon School.

S. J. Garrett motored into Car-  
bon last Wednesday, returning  
Friday.

J. A. Toombs and D. Code mo-  
tored over to Three Hills on Thurs-  
day last.

Barr's Orchestra played the mu-  
sic for the dance at Hesketh Fri-  
day night.

S. Torrance and J. J. Greenan  
were visitors to Drumheller last  
Thursday.

The Chautauqua tent was pitch-  
ed on Monday and everything was  
in shape for the performance which  
started last night.
